

MESH

Product Description

PVC coated fabric with a medium sized mesh structure, lightweight and high strength. Specially formed for digital solvent based print. We have a wide range of finishing capabilities such as hemming and eyeletting.

Finish

Double sided matt.

Possible Applications

Its lightweight form and high strength makes this product ideal for large scale signage where there are high wind implications.

Environment

Suitable for internal and external applications.

Ink Guarantee

Minimum 2 year anti-fade (Dependant on application).
Solvent based ink.

Machining Possibilities

Suitable for single axis, vertical blade cutting to any shape.

Fire Rating

None.

Available size

Maximum Width
2000 mm

Please be aware that if you require hemming on the above product the maximum width will be reduced by anything up to 2", but we are able to join the material to ANY size you specify.
